Surrey United Soccer Club Technical Team Update

Surrey United Soccer Club would like to inform its membership that Liam Carter has accepted another role in the soccer community and thus, will be vacating the Surrey United Assistant Technical Director role at the start of August. While we will all miss Liam and the great job, he has done in helping Surrey United and its membership through the COVID-19 pandemic over the last year, we are nevertheless supportive of his decision and wish him nothing but the best moving forward in his new role.

Further to this announcement of Liam's departure it is with great pride and excitement that we announce Ronan Kelly as Surrey United's new Assistant Technical Director. Ronan has held a similar management role in the soccer community and has been in the SUSC BCSPL program for the last 2 years. We are proud of this internal staff promotion as coach development is a key pillar of the SUSC Development Plan.

"Ronan has impressed us in his time with the BCSPL Program", said SUSC Technical Director, Jeff Clarke. "He will bring on-field, management and communication skills that all Club members will value and will also complement our outstanding Club technical staff."

Ronan will work with Liam and our entire technical team over the transition in the next month to ensure a seamless transition prior to the start of the Fall/Winter season ahead. Please watch for our more detailed article in the August 2021 Club newsletter for more on Ronan and our Club's technical staff updates and promotions moving into the fall. It is because of our resiliency throughout this pandemic that we find ourselves in an incredible position of strength within our technical team and believe the entire team to be nothing short of the absolute best.
